

*Lucerne Graduate Academy for Law and Economics 2022 changed drastically the manner in which I think about Law and Economics. It turned out to be a multi-tool for legal analysis that is handy, relatively easy to use and unbelievably powerful when reliability of the results is to be considered.*

*The main courses allowed me to see the multitude of ways to implement the Law and Economics thinking when conducting my research and made me aware of the issues I need to be cognizant of when applying Law and Economics thinking. The lectures by Prof. Avishalom Tor, Prof. Jonathan Klick, Prof. Luigi Franzoni, Prof. Peter Nobel, Prof. Karl Hofstetter, and Prof. Deborah Tor were not only immensely interesting but also extremely helpful from the perspective of my academic development.*

*Last but not least, both the plan and the organization of the whole event was flawless. I believe that Professor Klaus Mathis together with Alexander Gian-Carlo Baumann created an ideal environment for individual scientific development for all the participants.*

*Katarzyna Południak-Gierz  
PhD, Jagiellonian University*
