

Lehrveranstaltungen 4. Semester

Im 4. Semester finden zwei Blockseminare statt, eines zum Thema "Mündlichkeit und Schriftlichkeit", das zweite zum Thema "Grenzen des Textparadigmas".

Blockseminar "The Limits of the Text/Grenzen des Textparadigmas"

In his inaugural lection at the Collège de France the French historian Lucian Febvre quoted the famous formula: "History proceeds from texts". According to him, this famous formula is at the same time a dangerous formula, as it denies the importance of techniques and practices and ties history almost exclusively to script. In this workshop we become acquainted with two alternative approaches to historical and cultural research, historical anthropology and picture theory.
